INTRODUCTION

The preparation of this Annual Engineer's Report (the "Report") is in conformance with the obligation of the City Council for the Pomona Street Lighting and Landscaping Maintenance District (the "District") of the City of Pomona (the "City") to provide street lighting and landscaping services upon each lot or parcel of land in the district in proportion to the estimated benefit to be received by each such lot or parcel of land for Fiscal Year 2023-2024.

This report is being prepared pursuant to the Landscaping and Lighting Act of 1972 (Part 2 Division 15 of the Streets and Highways Code of the State of California, commencing with Section 22500) ("Act"), Article XIID, Section 5(a) of the State of California Constitution.

In calculating the assessment for Fiscal Year ("FY") 2023-2024, this Report examines the current fiscal year's financial obligations.

The content of the Report is structured to provide the following information in accordance with Resolution No. 2023-42, adopted March 20, 2023:

- **Overview:** Provides background of the District.
- **Plans and Specifications:** Plans and specifications for the existing and final improvements are on file in the Office of the City Clerk and are incorporated herein by reference.
- **Fiscal Year 2023-2024 Cost Estimate:** An estimate of the costs of the maintenance and/or servicing of the improvements for Fiscal Year 2023-2024, including incidental costs and expenses.
- **Assessment Diagram:** A diagram showing the Assessment District and applicable zone boundaries is included herein as Appendix A.
- **Method of Assessment:** A description of the method of apportionment of the assessments, including the proposed assessment and total amount of the maintenance costs and expenses of the improvements within the Assessment District.
- **Engineer's Certification:** Assessment Engineer authorizes that the costs and expenses of the District have been assessed to the lots and parcels within the boundaries of the District in proportion to the estimated benefits to be received by each lot or parcel from the services provided.

Please note that DTA has utilized prior year parcel data provided by the City. Such data includes, but is not limited to, assessor's parcel numbers, land uses, front footage, acreage, assessment data, etc. DTA has not audited such data and has not modified such data unless any parcel changes or annexations have occurred.

I OVERVIEW

The City of Pomona (the "City") established the Consolidated Citywide Street Lighting and Landscaping Maintenance District to provide a source of funding for the ongoing maintenance of the amenities that were installed for the benefit of the parcels within the District. The district was created under Article 4, Chapter 1, of the Landscaping and Lighting Act of 1972 (the "72 Act") which is Part 2, Division 15 of the California Streets and Highways Code (the "Act"). The City prepares an Engineer's Report annually and holds a public hearing to allow property owners within the District to address the City Council prior to the annual levy of the assessments.

In July 1990, the City established a Consolidated Citywide District with six benefit/improvement zones (Zones A through F). In subsequent years, as new development occurred, additional Zones were formed, resulting in nine benefit/improvement zones (A through I). A map showing the current boundaries of the District benefit/improvement zones is included herein as Appendix A. Any notable events that have occurred since the formation of the nine benefit/improvement zones are described below.

In 2008 and 2018-2019, proceedings were initiated in Zones A and B (Phillips Ranch Landscaping Zones) to increase the rates that had been unchanged since Proposition 218. In both cases a Public Hearing was conducted, ballots were tabulated and there was a majority protest which did not allow an increase in the current assessment rates. As a result, the rates have remained the same and reductions in maintenance levels have been made over the years as well as requiring contributions from the General Fund to offset the cost deficit.

Zone G was established to fund the installation of streetlights on seven streets formerly identified as Zones G-1 through G-7. Lights were installed on Cadillac Drive, Ballerina Place, St. Paul Street, Dudley Street, Arroyo Street, Elwood Avenue and Kingsley Avenue. In Fiscal Year 1998-99, the final of seven annual installments for the installation of streetlights were paid. Beginning with Fiscal Year 1999-00, all parcels formerly in Zones G-1 through G-7 were added to Zone C.

Zone E was initially established to install and maintain medians and parkways for the parcels located on Auto Center Drive, White Avenue and Rio Rancho Road. At the time the zone was created, all parcels within the zone were designated as non-residential and the spread of the assessment was based on acreage of each parcel. In 2018, the City updated the assessment to include single family homes due to a change in the development plan as provided by the developer of such property. The details of reallocating the assessments for those properties are included in Section IV, Method of Assessment.

Each year as property develops, they are annexed into the appropriate District Zone based on the types of benefit received. Prior to being annexed, property owners of newly developed parcels must give their consent to the annexation of the parcel(s) and the levy of the assessment for the District. A list of the parcels that have approved the annexation for

inclusion from May 13, 2022, to May 1, 2023, is shown in Appendix B. As mentioned previously, DTA has relied on prior year data provided by the City and has assumed all properties annexed into the District prior to May 26, 2020, were annexed appropriately pursuant to the applicable legal requirements.

This Engineer's Report sets forth the proposed assessments for Fiscal Year 2023-2024 for the Street Lighting and Landscaping Maintenance District. Since the District was created prior to the passage of Proposition 218 in 1996, which established Article XIIIID of the State Constitution, the Street Lighting and Landscaping Maintenance District is a "grandfathered" assessment district under Section 5 of Article XIIIID of the State Constitution. As such it is not subject to the legal requirements of Proposition 218 so long as the assessments remain at rates that are equal to or less than the maximum assessment rates that were in place on June 30, 1997. As a result, the District does not have a built-in escalation factor to account for the increasing operating and maintenance costs. The assessment rates for Fiscal Year 2023-2024, as described in Section V herein, are equal to the maximum assessment rates for Fiscal Year 2023-2024.

A description of District improvements is provided in Section II of this Report and the estimated cost of maintenance services for Fiscal Year 2023-2024 are detailed in Section III of this Report. The method of apportioning costs to the parcels of land within each Zone of the District is provided in Section IV of this Report. The Fiscal Year 2023-2024 Assessment Roll which includes the assessment amount for each parcel in the District is included herein as Appendix C and is on file in the office of the City Clerk.

II PLANS AND SPECIFICATIONS

The facilities, which have been constructed within the boundaries of the District, and those which may be subsequently constructed, will be operated, maintained, and serviced as generally described as follows:

The improvements consist of the construction, operation, maintenance and servicing of street lighting, traffic signals, landscaping, and park and recreational facilities and appurtenant facilities, including but not limited to, personnel, electrical energy, utilities such as water, materials, contracting services, and other items necessary for the satisfactory construction, operation, maintenance, and servicing of the improvements described below.

A Landscaping

Landscaping, plantings, shrubbery, trees, irrigation systems, hardscapes, fixtures, sidewalk maintenance and appurtenant facilities located within parkways, medians, parks, recreation areas, trails, city building grounds, street rights-of-way and dedicated easements which are within the boundaries of the District.

The street medians that are being maintained within the District are generally located on "major streets or thoroughfares", which include roadways such as those defined in the General Plan Circulation Element as Prime Arterial, Major or Collector Streets, or within roadways that provide a District-wide benefit as designated by the City Engineer.

B Lighting

Poles, fixtures, bulbs, conduits, equipment including guys, anchors, posts and pedestals, metering devices, appurtenant facilities, and tree pruning around lights as required to provide lighting in public rights-of-way and easements within the boundaries of the District.

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the landscaping, public lighting facilities, and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping, public lighting facilities, or appurtenant facilities; providing for the life, growth, health and beauty of the landscaping, including cultivation, irrigation, trimming, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water for the irrigation of the landscaping and the maintenance of any of the public lighting facilities, or appurtenant facilities and the furnishing of electric current or energy, gas, or other illuminating agent for the public lighting facilities, or for the lighting or operation of the landscaping, or appurtenant facilities.

III ASSESSMENT DIAGRAM

An Assessment Diagram for the Assessment District is included herein as Appendix A. The lines and dimensions of each lot or parcel within the Assessment District are those lines and dimensions shown on the maps of the Assessor of the County of Los Angeles, for the year when this Report was prepared.

IV FISCAL YEAR 2023-2024 COST ESTIMATE

The tables below summarize the estimated revenues, costs, and ending fund balances for Fiscal Year 2023-2024. Table 1 below, specifically, summarizes the estimated assessment revenue by Zone for FY 2023-2024.

1. Since Fiscal Year 1999-00, all parcels formerly in Zone G have now been included in Zone C.
2. Totals may be off slightly due to rounding.
3. Expenditures for Zones D-F based on aggregate amount as provided by the City. Such aggregate amount has been allocated to Zones D-F based on each Zones' percentage share of the total assessment revenue generated for such zones.
4. Based on information provided by the City.
5. As of May 15, 2023.

The Landscape and Lighting Act of 1972 ("Act") requires that a special fund be set-up for the revenues and expenditures of the Assessment District. Funds raised by the assessment shall be used only for the purposes as stated herein. A contribution to the Assessment District by the City may be made to reduce assessments, as the City Council deems appropriate. Any balance remaining on July 1 must be carried over to the next Fiscal Year.

V METHOD OF ASSESSMENT

A General

Part 2 of Division 15 of the Streets and Highways Code, the Landscaping and Lighting Act of 1972, permits the establishment of assessment districts by Agencies for the purpose of providing certain public improvements which include construction, operation, maintenance and servicing of streetlights, traffic signals, landscaping, parks, and recreation facilities.

Section 22573 of the Landscape and Lighting Act of 1972 requires that maintenance assessments be levied according to benefit rather than according to assessed value. This section states:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

The Act permits the designation of benefit zones within any individual assessment district if "by reasons or variations in the nature, location, and extent of the improvements, the various areas will receive different degrees of benefit from the improvement" (Sec. 22547). Thus, the 1972 Act requires the levy of a true "assessment" rather than a "special tax."

Exempted from the assessment would be any property owned by a public agency that is in use in the performance of a public function.

The methodology as presented in the annual Engineer's report is unchanged from the previous fiscal year.

B Benefit Determination

- **Landscaping** - Trees, landscaping, and parks, if well maintained, provide beautification, shade, and enhancement of the desirability of the surroundings; and
- **Lighting** – Sufficient street lighting provides a benefit to residents in the form of convenience and safety and protection of people and property.

C Description of Assessment Zones

The table below lists the assessment zones for the District and indicates the type of benefit received by each zone. Please see the following pages in this report for more information regarding the assessment zones.

Table 4: Assessment Zones

Zone	Description	Landscaping Benefit	Lighting Benefit
A	Phillips Ranch	Yes	No
B	Phillips Ranch	Yes	Yes
C	District-Wide	No	Yes
D	Garey Ave. - Lexington Ave to Route 71	Yes	Yes
E	Garey Ave. - Auto Center	Yes	Yes
F	Garey Ave. - 9th St. to Lexington Ave.	Yes	Yes

H	University Corporate Center	Yes	Yes
I	Emerald Court - Tract No. 52097	No	Yes

D Lighting Assessment Analysis

The Equivalent Dwelling Unit ("EDU") factors were established for the various land uses at the time the District was formed and will remain unchanged each year. As indicated in the Engineer's Report for Fiscal Year 2022-2023, the single-family residential lot is the basic unit for calculation of assessments and is defined as one EDU. For land uses other than single family residential the EDU factor is determined by lot or parcel size as it is assumed that the benefit of public lighting is uniform across all land uses and based on parcel or lot area only.

Commercial, industrial, and multi-residential parcels (apartments) are assigned 6 EDUs per acre, or any portion thereof, with a minimum of 1 EDU per parcel. The factor of 6 for commercial, industrial, and multi-family uses is based on a density for single family land uses of 6 dwelling units per acre as compared to an acre of commercial, industrial, or multi-residential land use. For the purpose of this study a condominium unit is assumed to be equal to 1 EDU.

This EDU method, based on land use type and size, remains unchanged from prior years. DTA is in agreement that this methodology is seen as the most equitable method of allocating benefit to each parcel as a function of land-use type and size.

D.1 Zone A

Lighting within Zone A (Phillips Ranch) is maintained by the HOA, and therefore such property does not receive any lighting benefits from the District.

D.2 Zones B-F and I

The lighting maintenance costs, for lighting facilities located within and along public streets and sidewalks, are spread on an EDU basis to Zones B through F, and I. The assessment rate equals the total assessment divided by the total number of EDUs as follows:

Total Lighting Assessment = \$160,560.76

Total EDUs = 10,446.40

Assessment Rate = \$160,560.76 ÷ 10,446.40 = \$15.37/EDU

D.3 Zone H

The lighting assessment for Zone H also uses the EDU method, however it is combined with the landscape costs. The Assessment Methodology used for Zone H is described in the "Combined Lighting and Landscaping Analysis" in Section G shown below.

E Landscaping Assessment Analysis

The Dwelling Unit ("DU"), acreage, and front footage factors used to calculate the landscaping assessment were established for the various land uses at the time the District was formed and will remain unchanged each year. The assessment factors described below are the same as those used in the Fiscal Year 2022-2023 Engineer's Report.

E.1 Phillips Ranch (Zones A and B)

The Phillips Ranch area consists mainly of single-family residences which are assessed on a Dwelling Unit basis. The non-single-family residence properties, primarily commercial, are assessed on an acreage basis. The total landscaping assessment for these zones are apportioned to each land use by the percentage of area of each type of land use as follows (a portion of the non-single-family residence area has become non-assessable due to freeway expansion and further development of non-residential property to include non-assessable public roads and easements, as shown below).

Land Use	Percentage
Non-Single-Family Residence Area	4.89%
Freeway Right-of-Way and Other Non-Assessable Property	0.18%
Single-Family Residence Area	94.93%
Total	100.00%

E.2 South Garey Avenue (Zones D, E, and F)

Zones D, E, and F relate to the South Garey Avenue area, for landscaping facilities located within and along public streets and sidewalks. The landscaping maintenance costs for Zones D and F is split between the frontage on Garey Avenue and the area of the parcel. The total assessment is divided in half, with one half spread on an area basis, and the other half on a frontage basis. This recognizes the fact that there is not a uniform relationship between area and frontage for the properties within these zones. Zone E does not include any frontage on Garey Avenue. Therefore, the landscaping assessment is calculated based on the area of parcel, other than the exception described below in Section E.2.i.

Parcels along Garey Avenue that are either zoned residential (County use code R-1), or have actual residential uses are included within the Assessment District but are not assessed. Such parcels will be assessed if, and when, they have commercial uses. There are a few residential developments that are assessed in the Methodology Exceptions as described below.

E.2.i Methodology Exceptions:

1. **Zone E:** At formation of the district, the assessment was levied on all parcels in Zone E based on acreage since it was part of the overall South Garey Avenue plan of development. As mentioned earlier, as a result of the change in land use to residential for two of the properties, the assessment is reallocated using the acreage for the original parcel(s) and spread equally to each dwelling unit since all of the units benefit equally. Future residential tracts will assume the assessment obligation for the parcel they will be built upon since each of the original parcels was apportioned the benefit assessment based on acreage. The development planned on parcels 8344-024-050 and 051 subdivided during the 2019-20 fiscal year into 110 single family homes. The original acreage of 11.1668 divided by 110 equals 0.1015 acres per home for a combined lighting and landscaping unit rate of \$113.34 (\$15.37 for lighting and \$97.97 for Landscaping).
2. **Zone F:** This area includes Tract No. 49624, a 73-unit residential development that includes approximately 660 lineal feet of frontage and encompasses 9.24 acres of area. The 660 lineal feet of frontage and 9.24 acres of area are divided by 73, which equals 9.04 lineal feet of frontage and 0.1266 acres of area per home for a combined lighting and landscaping unit rate of \$50.07 (\$15.37 for lighting and \$34.70 for Landscaping).

The following table is a summary, by zone, of the parcel data used to calculate the landscaping assessment rate.

Table 5: Landscaping Assessment Rate Calculations ¹

F	Front Footage		50.80%	\$8,143	7,539.41 LF	\$1.08/ LF

Notes:

1. DTA relied upon data, starting in fiscal year 2021-2022, provided by the City for all parcel data other than properties that had parcel changes or properties annexed to the District after May 26, 2020.

F Combined Lighting and Landscaping Assessment Analysis

There are 19 commercial parcels in this area located within 41.80 acres. Commercial parcels are assessed 6 EDUs per acre, or any portion thereof, with a minimum of 1 EDU per parcel. The lighting and landscaping maintenance costs are spread on an EDU basis. The assessment rate equals the total assessment divided by the total number of EDUs as follows:

Total Costs for Lighting and Landscaping = \$62,837.96

Total EDUs = 250.80

Assessment Rate = \$62,837.96 ÷ 250.80 EDUs = \$250.55/EDU

G Parcel Summary

The following is a summary, by zone, of the parcel data within each zone that was used to calculate the assessments.

H Assessment Rate Summary

There is no increase in assessment rates for Fiscal Year 2023-2024 from the prior year. Any future increases in assessment rates will require noticing and balloting as provided by Article XIIID of the State Constitution (Proposition 218).

The tables below summarize, by zone, the landscaping and lighting assessment rates used for Fiscal Year 2023-2024.

The assessment for each parcel is shown on the Assessment Roll on file in the Office of the City Clerk and incorporated herein by reference.

A Engineer's Conclusion

In conclusion, it is DTA's opinion that the assessments within the District are apportioned by a formula that fairly distributes special benefit in accordance with the special benefits that are received.
