NOW THEREFORE, BE IT HEREBY RESOLVED by the Historic Preservation Commission of the City of Pomona, California, as follows:

SECTION 1. Section B.9 of the City of Pomona Revised and Restated Mills Act Historic Preservation Tax Abatement Program (Mills Act Program) requires that, prior to the approval of a Mills Act contract, the following findings be made regarding the Restoration, Rehabilitation and Preservation Plan and supporting materials for the subject property:

1. *Based on information contained in the program application including, but not limited to, the Restoration, Rehabilitation and Preservation Plan, cost estimates, estimated tax savings to the property owner and other related information, the approval of the Mills Act contract will serve to compensate the City for the reduction in property taxes received.*

Based on the information provided and Staff's analysis of the application, the subject Mills Act contract will compensate the City with tax-based benefits consistent with properly maintained private properties within a locally and nationally designated Historic District.

2. *The Restoration, Rehabilitation and Preservation Plan will extend the life of the structure(s), protect the historic and aesthetic value of the property, and comply with the rules and regulations of the State Office of Historic Preservation of the Department of Parks and Recreation; the United States Secretary of the Interior's Standards for Rehabilitation; the State Historic Building Code; and the City of Pomona Municipal Code, Historic Preservation Ordinance and Design Guidelines.*

The projects listed in the proposed Rehabilitation Plan are exterior architectural elements that play vital roles in the preservation of historic resources in that they function as the first line of defense against external factors such as harsh weather conditions and pests. The listed repairs will ensure sufficient protection of both important architectural features of the site's architectural style and the structural integrity of a locally and nationally registered historic resource. Furthermore, the nature of the listed repairs are required to obtain permits from the City that will require compliance with local, state, and federal standards and guidelines.

REHABILITATION PLAN

YEAR	PROJECT	COST
2034	Window Repair – 15 count	\$7,500
2035	Exterior paint	\$13,125
2035	Fence repair	\$3,000

SECTION 2. In view of all of the evidence and based on the designation criteria contained in the staff report, the Historic Preservation Commission concludes as follows:

The property located at 410 E. Alvarado Street is using the tax benefit to maintain and improve the historic resource, the proposed rehabilitation plan will preserve the historic character of the property, and the preserved and maintain resource provides a benefit to the City. Therefore the Historic Preservation Commission recommends the City Council enter into a Mills Act contract for the property.

SECTION 3. The Secretary shall certify to the adoption of this Resolution and forward the original to the City Clerk.
