John and Gail Cook moved to the Phillips Ranch area of Pomona in 1989 and called Pomona home for 34 years. Gail and John loved their community and all of their neighbors. I still hear neighbors say the only reason they have so many friends was because John and Gail brought the community together in many ways. They also took great pride in their home. Their landscaping was beyond beautiful, and Gail kept the inside immaculate. They always had some kind of project they were working on. The pride showed in everything they did. They were proud to call Pomona their home.

10. Community-wide activities Individual or Group is involved in:

They were both ready to jump in and help with community clean ups, planting trees in the greenbelt and even cleaning up the riparian on Rio Rancho for Pomona Beautification Day. When Gail was no longer physically able to participate in the beautification events she would sit at the check-in table and cheer the volunteers on. She always had cheer in her voice and a smile on her face. They participated in local politics and supported two of our city council members with their campaigns. They knocked on doors, hung door signs and placed yard signs for anyone who wanted them. They were both close to 80 when they decided to go through with citizens police academy with Pomona PD. They attended city council meetings; neighborhood watch meetings and the area commander meetings. They stayed very involved in the community even into their 80's. Naming the greenbelt area after them would be a wonderful tribute to wonderful people.

9. Please discuss the reason for this nomination as it relates to criteria in Policy (additional supportive information, photos, or articles may be attached):

John and Gail Cook moved to the Phillips Ranch area of Pomona in 1989 and called Pomona home for 34 years. Gail and John loved their community and all of their neighbors. I still hear neighbors say the only reason they have so many friends was because John and Gail brought the community together in many ways. They also took great pride in their home. Their landscaping was beyond beautiful, and Gail kept the inside immaculate. They always had some kind of project they were working on. The pride showed in everything they did. They were proud to call Pomona their home.

They were both ready to jump in and help with community clean ups, planting trees in the greenbelt and even cleaning up the riparian on Rio Rancho for Pomona Beautification Day. Dear Sirs:

I would like to give you the full story of Dr. Reyes Rachel Madrigal, Ph.D. who passed away in 2013.

Born in Texas but raised in Pomona, she was the second oldest of eight children of Maria and Ascencion Rios who resided in the little three bedroom house on the corner of Buena Vista and eleventh for over 50 years thus being a production of Pomona Unified School District education system attending Hamilton Elementary, Fremont Middle School and Pomona High School. She married young, had four children, divorced then returned to Pomona and work, raised children and continued her education.

She got her GED, then attended California State University at Fullerton attaining her B.A. and then received her teaching credential from Chapman University. She was honored with a fellowship to attend Sacramento State to pursue training the newly developed Bilingual Program then returned to Pomona Unified to assist in its implementation. She was also employed by the district as a Pomona High School Teacher of Spanish and French. While working she attended Claremont College and received her PhD in education.

She left the district briefly to become the Assistant Superintendent of School in Delano, California. She remarried but eventually returned to Pomona. She spent her later years as a professor of Spanish at Mount San Antonio College.

So as you can see she has spent many, many years touching the lives of lots and lots of students in her many years of education.
