Contractor shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, from and against any and all fines, penalties, claims or other regulatory requirements imposed as a result of Contractor's non-compliance with the laws, regulations and policies described in this Section, unless such non-compliance is the result of the sole established negligence, willful misconduct or active negligence of the City, its officials, officers, agents, employees or authorized volunteers.

(C) Training. In addition to any other standard of care requirements set forth in this Agreement, Contractor warrants that all employees and subcontractors shall have sufficient skill and experience to perform the Services assigned to them without impacting water quality in violation of the laws, regulations and policies described in this Section. To the extent available, the bonds shall further provide that no change or alteration of the Agreement (including, without limitation, an increase in the total compensation, as referred to above), extensions of time, or modifications of the time, terms, or conditions of payment to the Contractor, will release the surety. In the event that Contractor fails to perform its obligations under this Section, or under any other warranty or guaranty under this Contract, to the reasonable satisfaction of the City, the City shall have the right to correct and replace any defective or non-conforming work and any work damaged by such work or the replacement or correction thereof at Contractor's sole expense. City may deduct or withhold, as applicable, from each progress payment an amount necessary to protect City from loss because of: (1) stop payment notices as allowed by state law; (2) unsatisfactory prosecution of the Services by Contractor; (3) sums representing expenses, losses, or damages as determined by the City, incurred by the City for which Contractor is liable under the Agreement; and (4) any other sums which the City is entitled to recover from Contractor under the terms of the Agreement or pursuant to state law, including Section 1727 of the California Labor Code. The failure by the City to deduct any of these sums from a progress payment shall not constitute a waiver of the City's right to such sums.

3.3.5 Extra Work. At any time during the term of this Agreement, City may request that Contractor perform Extra Work. **3.3.7 Registration/DIR Compliance.** If the Services are being performed as part of an applicable "public works" or "maintenance" project, and if the total compensation is \$15,000 or more, then pursuant to Labor Code Sections 1725.5 and 1771.1, the Contractor and all subcontractors performing such Services must be registered with the Department of Industrial Relations. Contractor shall maintain registration for the duration of the Project and require the same of any subcontractors, as applicable. This Project may also be subject to compliance monitoring and enforcement by the Department of Industrial Relations. Any stop orders issued by the Department of Industrial Relations against Contractor or any subcontractor that affect Contractor's performance of Services, including any delay, shall be Contractor's sole responsibility. ### **SCOPE OF SERVICES**

The scope of services stated herein describes a service for the purchase, removal, disposal, and installation of COC-L60 Granular Activated Carbon (GAC) at a water treatment facility.

Contractor shall be responsible for the supply, delivery, and loading of the Virgin Coconut-based GAC, as specified herein.

Delivery trailers shall be lined with an FDA-approved lining material. Trailers and all hoses/appurtenances shall be disinfected and hot-rinsed prior to delivery for potable water use.

Contractor shall be responsible for all washing, backwashing, or pretreatment of the GAC, if required, prior to system operation. City will assist Contractor by providing water for backwashing at up to 800 GPM.

Contractor shall be responsible for loading each vessel, removing and disposing of spent GAC at a facility permitted to accept spent GAC, and disinfecting the empty vessels according to the requirements of AWWA C653-13 Disinfection of Water Treatment Plants. Contractor shall be responsible for the cleanup of any GAC spillage and for restoring the site to its original condition upon completion of the service.

#### **Materials - Granular Activated Carbon**

GAC shall be suitable for use as a filter media in a potable water treatment plant and be effective in the removal of the target compounds described herein to the prescribed acceptable levels. The GAC shall be visually free of clay, dirt, and deleterious material.

The GAC shall comply with AWWA B604, the latest edition, and be NSF 60/61 certified.

The Certificate of Analysis shall certify that the GAC sample shipped to the site is 100% virgin carbon and in full compliance with the specifications stated herein. Failure to comply shall result in a rejection of the GAC.

The product as packaged (confirmed by pre-shipment sample testing) shall meet the following specifications:

- Analysis Value Test Method
- Type Coconut Shell
- PSD, U.S. Standard Mesh Size 12x40 mesh,
- 5% max over,
- 4% max under
- Iodine Number (mg/g), min. 1100 ASTM D4607
- Moisture, weight %, max. 2 ASTM D2867
- Effective size, mm 0.55 – 0.85 ASTM D2862
- Uniformity Coefficient, max. 2 ASTM D2862
- Abrasion No., min. 85 AWWA B604
- Hardness No. 95 ASTM D3902-79

- Ash, Max. 10% ASTM D2866

### **Removal of spent GAC:**

The City's treatment system is designed and constructed to allow each adsorber vessel to be isolated for removal of spent GAC. Removal shall be accomplished by pressuring the vessel with compressed air to displace the spent GAC into an empty shipping container or trailer. The bottom of the adsorber vessel(s) and GAC slurry piping are designed to allow complete removal of the spent GAC from the adsorber vessel(s) and piping, side hatch shall be opened and GAC caked-on walls shall be washed out until the vessel is completely empty, the interior of vessel(s) shall be disinfected with chlorine solution with a dosage of 100 mg/L, filled w/potable system water for 24 hours, then drained filled w/potable water and sampled for bacteria and HPC's. Samples must result in absent total coliform and E.coli. HPC's must be below 100 cfu/mL.

### **Installation of GAC:**

- Following inspection and disinfection of the system, the adsorber vessel(s) shall be filled with 20,000 pounds (each vessel) of virgin GAC in accordance with the specifications.
- The Contractor shall deliver GAC in trailers disinfected/sanitized for the transport of potable water GAC. Trailers shall be thoroughly cleaned/disinfected, and hot rinsed prior to filling with GAC. The trailers shall be lined or constructed with materials suitable for transporting GAC that will be in contact with potable water. All hoses to transfer GAC shall be disinfected prior to contact of media.
- Makeup or rinse water needed for the transfer shall be potable water provided by the City. The GAC Supplier shall provide any necessary hoses, site glasses, piping, and appurtenances for using this water. The compressed air supply required for the transfer of carbon shall be provided by the GAC Supplier and be free of any oil.
- All water used in the transfer process shall be discharged to the point on site designated by the City; no discharges will be permitted without the City's permission.
- GAC shall be transferred as water slurry only, using air pressure on the trailer as the motive force. Use of a pump or eductor to transfer the carbon from the trailer into the adsorber vessel(s) will not be allowed. Bag loading or dry loading of the GAC into the adsorber vessel(s) is prohibited.
- Following the installation of the GAC in the adsorber vessels, the vessel(s) shall be completely filled with water and left to soak for 24 hours to remove entrained air before the backwash begins. Contractor may pre-soak carbon in the trailer as an alternative to the 24-hour method, to enable backwashing on the same day as loading.
- Backwashing shall be performed with water supplied by the City. The Contractor shall be responsible for providing a filtering system to capture the dis-colored water and fines that are discharged during the back-wash process. Backwashing shall be performed until the discharge water is clear and free from any fines, color, and air.

**Samples:** After backwashing is complete, Contractor shall collect bacteriological samples at the effluent of each vessel. City will collect its own samples at the well discharge, bag filter housing, and vessel effluents. After Contractor samples and City samples are Absent/Absent results for Total Coliforms & E.coli, and HPC's are at least 100 cfu/mL or less, GAC vessels will be put into service.

In the event bacteriological samples are present for Total Coliform/E. Coli or the HPC's are above 100 cfu/mL but less than 500 cfu/mL, additional flushing shall be performed and vessels re-sampled. If the bacteriological samples are still present or HPC results are above 500 cfu/mL Contractor shall be responsible for disinfection of carbon/vessels until a satisfactory result is achieved. The HPC goal is always <1 cfu/mL. If the HPC's are routinely coming in significantly higher than the goal, Contractor shall rectify the problem, and work with the City to achieve the required result.

**Disinfection:** If bacteria is present, or HPC's are too high (>500 cfu/mL), disinfection may become necessary. The contractor shall provide disinfection services, as outlined below, within 7 calendar days of receiving City request.

**Specifications for disinfecting one (1) adsorber:** Three 55-gallon drums of 40-50% available sodium hydroxide (caustic soda) shall be circulated via a chemical pump through the adsorber(s) load line, down through the drain line until a pH of >13 is achieved, and held for at least 6 hours, with a continuous circulation for a minimum of 3 hours to ensure exposure of all surface area. Vessel shall now remain in soak mode for 8 – 12 hours (overnight). After completion of soak mode, resume recirculation for an additional 45 minutes.

**Neutralize:** The neutralization process shall be performed by utilizing Hydrochloric acid (HCl) to neutralize the residual caustic from the disinfection procedure. One 55-gallon of 37% of HCl shall be available and circulated via chemical pump through the adsorber(s) load line, down through the drain line until a pH between 6.5 & 8.5 is reached. Carbon will then be rinsed until the pH of the effluent water is at the same range of the incoming water. The vessel is then ready to be sampled for bacteria and HPC's.

**Disposal:** Contractor shall take samples of exhausted media for GAC profiling.

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the City of Pomona (hereinafter referred to as "City") has awarded to \_\_\_\_\_, (hereinafter referred to as the "Contractor") \_\_\_\_\_ an agreement for \_\_\_\_\_ (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Contract Documents for the Project dated \_\_\_\_\_, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, \_\_\_\_\_, the undersigned Contractor and \_\_\_\_\_ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the City in the sum of \_\_\_\_\_ DOLLARS, (\$\_\_\_\_\_), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one-year guarantee of all materials and workmanship; and shall indemnify and save harmless the City, its officers and agents, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by City, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the City from loss or damage resulting from or caused by defective materials or faulty workmanship, Surety shall undertake and faithfully fulfill all such obligations. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the City's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure section 337.15.

Whenever Contractor shall be, and is declared by the City to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the City's option:

- (1) Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or
- (2) Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the City, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.
- (3) Permit the City to complete the Project in any manner consistent with local, California and federal law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term "balance of the contract price" as used in this paragraph shall mean the total amount payable to Contractor by the City under the Contract and any modification thereto, less any amount previously paid by the City to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the City may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the City, when declaring the Contractor in default, notifies Surety of the City's objection to Contractor's further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project, including but not limited to the provisions of sections 2819 and 2845 of the California Civil Code.
