

Historic Preservation Commission

Staff Report

April 3, 2024

SUBJECT: Appeals Code Section

PROJECT PLANNER: Geoffrey Starns, AICP, AIA, LEED AP, Historic Preservation Supervisor

Handwritten initials "GS" in blue ink.

The Commission, in 2023, asked for the appeals section to come back for review. The proposed Zoning Code creates a single administration and appeals section, so the appeals in the historic preservation ordinance is being moved. At the time the Commission reviewed the Historic Preservation Ordinance, the appeals section was not yet completed, and the Commission requested to see the section when it was completed to ensure no changes were being made. The appeals section of the proposed zoning code is attached. Nothing has changed. Appeals are still 20 calendar days. Staff will be available to answer any questions.
