Incident reports:

Suggestions:
- At the bottom of the table include definitions for fields like: Inc. Incident type; Alg. Allegation; Inc. Status; and Inc. Disposition. Including these definitions can help non-experts better understand the data and make POC meetings more accessible to the public.
- For incidents in "Initial" status, flag whether steps have been taken by the police department in response to the incident.

Police Oversight Commission Monthly Report

Community Events:
On a regular basis (maybe quarterly) we should have some presentation/conversation about the community events and how they are meeting PD objectives.
- Purpose of the events: What goals the PD set (increase positive contacts, educate youth on safety, etc.)
- Participating units
- Activities conducted: workshops, presentations, resource sharing, etc.
- Reach: Who attended? Was this the intended population for the event?
- Community feedback - what did the community raise during the meetings
- Outcomes/impact - What changed because of the event. Were the goals of the event achieved? How so?
- Action items/next steps - How is PD using information/experiences from this event to inform their work moving forward?

PROFESSIONAL STANDARDS:
- Suggested fields to add
  - Investigations by police beat: Reporting incidents by location such as police beats can help to identify patterns across the city
  - Incident Dispositions for closed investigations

Crime statistics:
- Arrests overall and by crime category
  - Total number or arrests
    - Comparison to same period last year
  - Breakdown by:
    - Felony, misdemeanor
  - Arrests by offense type:
    - Violent, property, drug-related, weapons offenses, DUI, Disorder, Warrants
  - Number of arrests for each category
    - Comparison to same period last year
  - Type of police contact leading to arrest

- - - Officer-initiated
    - Citizen call for service
    - Traffic stop
    - Community policing activity
    - Special operation
  - Outcome (overall and by arrest type)
    - Booked into jail
    - Cited and released
    - Comparison to same period last year
  - Force used?
    - Number of arrests involving use of force
    - Comparison to same period last year
  - Arrest demographics
    - Age groups
    - Gender
    - Race/ethnicity
    - Residency
- Calls for service
  - Request types
  - Year over year trends
  - Geographic breakdowns
