BACKGROUND

On June 16, 2014, the City Council enacted a moratorium on waste and recycling facilities in the City of Pomona. That moratorium was extended twice, as allowed by law, in order for the City to evaluate the issues and possible regulations available to address the effects of these land uses. The Council created a Waste & Recycling Task Force which presented a proposed zoning code amendment to the Planning Commission on March 23, 2016. The Planning Commission did not approve the proposed ordinance, but recommended that the City Council review the findings and proposal of the Task Force. On April 18, 2016, the City Council reviewed the proposed ordinance from the Task Force, and appointed an Ad Hoc committee to evaluate the proposed ordinance and legal issues raised at prior meetings.

The Waste and Recycling Ad Hoc Committee discussed various options of moving forward with a new Ordinance to address both new and existing waste and recycling businesses. Meanwhile, the City Council directed that Development Services Department staff inspect existing waste and recycling operators.

On October 3, 2016, the City Council directed staff to enforce violations against those waste and recycling businesses not in compliance with development and operational standards defined in the City's Zoning Code, or are in violation of CUPs. Further, the City Council directed staff to

introduce amendments to the Pomona Zoning Code banning any new waste and recycling facilities throughout the City, with the exception of convenience recyclers and recycling manufacturers.

Under the City Council's direction, staff prepared the proposed Code Amendment (CODE 6899-2017). On March 8, 2017 the Planning Commission took public testimony on this project and continued the item to the April 26, 2017 Planning Commission Meeting. On April 26th, the Planning Commission voted 5-0-2-0 to recommend to the City Council the approval of Code Amendment (CODE 6899-2017). On June 5, 2017, the City Council conducted a public hearing for the first reading of this item and voted 6-0-1-0 to approve the proposed ordinance.
