

This map of San Antonio, Texas, illustrates the city's extensive highway network. Major freeways are shown as double lines, including I-35 running north-south through the center, I-10 running east-west at the top, and I-83 and I-77 running east-west at the bottom. Thick single lines represent truck routes, such as the one following the San Antonio River and another along the city's eastern edge. A legend in the top left corner defines these line types. The map is densely labeled with street names, including major thoroughfares like Broadway, Loop 1604, and various numbered highways. The city's irregular boundary is outlined, and the surrounding landscape is depicted with simple shading.
