SECTION 1. Pursuant to the Guidelines for Implementation of the Environmental Quality Act (CEQA), the proposed project meets the criteria for a Class 31, Section 15331 Categorical Exemption in that the project involves rehabilitation of a historic resource in a manner that meets the Secretary of Interior’s Standards for the Treatment of Historic Properties.

SECTION 2. Section B.9 of the City of Pomona Revised and Restated Mills Act Historic Preservation Tax Abatement Program (Mills Act Program) requires that, prior to the approval of a Mills Act contract, the following findings be made regarding the Restoration, Rehabilitation and Preservation Plan and supporting materials for the subject property:

- 1. Based on information contained in the program application including, but not limited to, the Restoration, Rehabilitation and Preservation Plan, cost estimates, estimated tax savings to the property owner and other related information, the approval of the Mills Act contract will serve to compensate the City for the reduction in property taxes received.*

Staff has determined that the estimated tax savings during the first ten years of the Mills Act contract for the subject property will be approximately \$38,220.00. The RR&P Plan includes projects with an estimated cost of \$38,470.00 as follows:

Replacement of all drainage piping beneath the home, reinstallation of abs piping of all drains, redraining of the bathroom, laundry, kitchen, sinks and showers/tubs including the second floor.	\$5,000.00
Reroof including the removal of all roofing debris, layers of previous roofing material, the replacement dry-rot shiplap boards beneath the existing roofing and a like for like material change of existing composition shingles.	\$33,470.00
TOTAL	\$38,470.00

As indicated above, the estimated cost of the projects included in the RR&P Plan exceeds the estimated tax savings over the first ten years of the Mills Act contract. Furthermore, completion of the projects will extend the life of the subject residence and help to restore its historic appearance, thus contributing to property value increase and the aesthetic enhancement of the surrounding Lincoln Park Historic District neighborhood.

- 2. The Restoration, Rehabilitation and Preservation Plan will extend the life of the structure(s), protect the historic and aesthetic value of the property, and comply with the rules and regulations of the State Office of Historic Preservation of the Department of Parks*

and Recreation; the United States Secretary of the Interior's Standards for Rehabilitation; the State Historic Building Code; and the City of Pomona Municipal Code, Historic Preservation Ordinance and Design Guidelines.

As conditioned, the projects included in the RR&P Plan will extend the life of the subject residence, protect the historic and aesthetic value of the property and comply with the rules and regulations of the State Office of Historic Preservation of the Department of Parks and Recreation; the United States Secretary of the Interior's Standards for Rehabilitation; the State Historic Building Code; and the City of Pomona Municipal Code, Historic Preservation Ordinance and Design Guidelines, as follows:

The proposed reroof and plumbing improvements involve the replacement of materials only to protect the structure from further deterioration, and as necessary to meet the California Building Code. Further, the proposed roofing material for replacement is consistent with the existing material and design of the structure.

SECTION 3. The Historic Preservation Commission hereby approves Mills Act Program Certificate of Appropriateness (MILLS 11968-2019) for a Restoration, Rehabilitation and Preservation Plan that includes a schedule of projects to be completed during the first ten (10) years following execution of a Mills Act contract for property located at 337 San Francisco Avenue, subject to the following conditions of approval:
