

Friends of Ganesha Park – Butterfly Garden

A group of volunteers have united for the cause of planting a butterfly garden in the wilderness section of Pomona's historic Ganesha Park.

We propose to plant a mixture of low-maintenance annual and perennial plants that attract butterflies. We have chosen flowering plants that provide nectar as well as larvae hosting plants.

Location: End of Alta Vista Drive

Plant Selection and Layout Design:
Robert Douglass and Sarah Fisher

Tentative Plant Date: November 16-17
