ORIGINAL ARTWORK MURAL INFORMATION & DESCRIPTION

Name of Artist(s): **Community Volunteers**

Indicate how the proposed mural will be attached to the building wall:

A temporary mural will be painted directly onto the back wall of the Philadelphia Park Community Center. A straight roller line of brown paint will be used as a trunk while the hands of volunteers will be used as the leaves.

Metal trash cans throughout the park will be painted bright solid colors.

Utility and storage boxes will be painted either in a solid color or with a simple design.

Indicate the exact brand materials to be used in the installation of the proposed mural including all preparation and coating materials:

- Power wash all surfaces to be painted
- Rustoleum paint in various colors for the trashcans and the utility and storage boxes
- Chroma Mural Paint in Dirt, Go, and Slime for the mural on the center back wall

Describe how the proposed material will satisfy all durability requirements and how the proposed maintenance will occur over the required 5 year period :

This project is not meant to last the 5 years, but since there is no temporary process in place I am attempting to gain approval through this process. In order to be approved, I believe I need major variations to the permit requirements.

It is my hope that eventually there will be a permanent mural on the back center wall as this is the view that park users see most, but I am spearheading this temporary solution.

I'm willing to follow whatever guidelines the commission sees fit (i.e. must be painted over a neutral eggshell color in 1 year), but I hope the commission sees that my intent is good and that this project should be approved despite it not meeting the requirements of a permanent mural piece.

There is no artist in charge as it will be a community volunteer effort and funds will be taken out of the District 3 Discretionary Funds.
