INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the City of Pomona Public Financing Authority Pomona, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major Fund of the City of Pomona Public Financing Authority (the "Authority"), a component unit of the City of Pomona, California (the "City"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Audit Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Authority, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis and Budgetary Comparison Schedule that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 12, 2020, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditors' Report

To the Board of Directors of the City of Pomona Public Financing Authority Pomona, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the City of Pomona Public Financing Authority (the "Authority"), a component unit of the City of Pomona, California (the "City"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated February 12, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To the Board of Directors of the City of Pomona Public Financing Authority Pomona, California Page 2

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

City of Pomona Public Financing Authority

Notes to the Basic Financial Statements For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies

The basic financial statements of the City of the Pomona Public Financing Authority (the "Authority"), a component unit of the City of Pomona, California (the "City"), have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") as applied to governmental agencies. The Governmental Accounting Standards Board (the "GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described below.

A. Financial Reporting Entity

The Authority is a joint exercise of powers authority created by a joint powers agreement between the City, the Redevelopment Agency of the City of Pomona (the "Agency") and the Redevelopment Agency of the City of West Covina, dated October 27, 1988. The purpose of the Authority is to provide, through the issuance of debt, financing necessary for the construction of public improvements. The Authority is not subject to federal or state income taxes.

The Redevelopment Agencies were dissolved as of January 31, 2012, through the Supreme Court decision on Assembly Bill 1X 26. The City of Pomona has elected to become the Successor Agency of the former Redevelopment Agency of the City of Pomona (the "Successor Agency"). The Successor Agency is responsible for winding down the remaining activities of the dissolved Redevelopment Agency and make payments due on enforceable obligations.

U.S. GAAP defines the financial reporting entity as the primary government and organizations for which the primary government is financially accountable. Financial accountability requires that (1) the primary government and the component unit have a financial benefit or burden relationship or (2) management (below the level of the elected officials) of the primary government have operational responsibility for the activities of the component unit. Since members of City Council also serve as the Board of Directors of the Authority, the City, in effect, has the ability to influence and control operations. In addition, the City has oversight responsibility for the Authority. Accordingly, the financial statements of the Authority are included in the City's Comprehensive Annual Financial Report. The Authority has the same fiscal year as the City. The Comprehensive Annual Financial Report of the City can be obtained from the Finance Department of the City.

B. Financial Statements Presentation, Basis of Accounting and Measurement Focus

The accounts of the Authority are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purpose of which they are to be spent and means by which spending activities are controlled.

Government-Wide Financial Statements

The Authority's government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of the governmental activities for the Authority.

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Financial Statements Presentation, Basis of Accounting and Measurement Focus (Continued)

Government-Wide Financial Statements (Continued)

These basic financial statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Economic resources measurement focus considers all of the assets and reports all inflows, outflows, and balances affecting or reflecting an entity's net position. Accordingly, all of the Authority's assets and liabilities, including long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under accrual basis of accounting, revenues are recognized in the period in which they are earned and expenses are recognized in the period in which the liability is incurred.

Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Change in Fund Balance. An accompanying schedule is presented to reconcile and explain the differences in fund balance as presented in these statements to the net position presented in the government-wide financial statements.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the balance sheets. The Statement of Revenues, Expenditures and Change in Fund Balance present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period.

Revenues are recognized as soon as they are both "measurable" and "available." Revenues are considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if it is collected within 120 days of the end of the current fiscal period. Expenditures are recorded in the accounting period in which the related fund liability is incurred. There are no administrative expenses for the Authority as it was established to be a financing vehicle for the joint power agreement members. Accordingly, each member bears its own costs associated with a debt issuance.

The Authority reports General Fund as a major fund. The **General Fund** is the Authority's primary operating fund and accounts for the payment of interest and principal on the local agency revenue bonds and other debt of the Authority and receipt of lease revenue and installment payments from local agency.

C. Cash and Investments

The Authority's cash and investments consist of cash and investments pooled with the City and investments held by fiscal agents to meet debt obligations. Investments with fiscal agents are restricted for the redemption of bonded debt.

D. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Note 1 – Summary of Significant Accounting Policies (Continued)

D. Long-Term Debt (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

The Fund Financial Statements do not present long-term debt. Accordingly, long-term debt is shown as a reconciling item in the Reconciliation of the Governmental Fund Balance Sheet to the Government-Wide Statement of Net Position.

As of June 30, 2019, the Authority has debt outstanding with joint powers agreement members, the City of Pomona and its Successor Agency, and none outstanding with the City of West Covina.

E. Risk Management

There is limited exposure for the Authority as it was established to be a financing vehicle for the joint power agreement members.

F. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Authority reports deferred loss on refunding as deferred outflows of resources.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are recognized as an inflow of resources in the period that the amounts become available. The Authority reports deferred gain on refunding as deferred inflows of resources.

G. Net Position

In the government-wide financial statements, net position is classified in the following:

<u>Restricted</u> – This amount is restricted by external creditors, grantors, contributors, or laws or regulations of other governments.

<u>Unrestricted</u> – This amount is all net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

When expenses are incurred for purposes for which both restricted and unrestricted net position are available, the Authority's policy is to apply restricted net position first, then unrestricted net position as they are needed.

City of Pomona Public Financing Authority

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

H. Fund Balances

In the fund financial statements, governmental funds report the following fund balance classification:

<u>Nonspendable</u> – This includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

<u>Restricted</u> – This includes amounts that are constrained on the use of resources by either (a) external creditors, grantors, contributors, or laws of regulations of other governments or (b) by law through constitutional provisions or enabling legislation.

<u>Committed</u> – This includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest authority. The board of director, as the Authority's highest level of decision-making authority, may commit fund balance for specific purposes pursuant to constraints imposed by resolution. These committed amounts cannot be used for any other purpose unless the board of directors removes or changes the specified use through the same type of formal action taken to establish the commitment. The board of directors' action to commit fund balance needs to occur within the fiscal reporting period; however, the amount can be determined subsequently.

<u>Assigned</u> – This includes amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Resolution No. 2011-63A gave the Finance Director authority to assign amounts for specific purposes.

<u>Unassigned</u> – This is the residual amounts that have not been restricted, committed, or assigned to specific purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Authority's policy is to apply restricted fund balance first. Further, when the components of unrestricted fund balance can be used for the same purpose, the Authority uses the unrestricted resources in the following order: committed, assigned, and unassigned.

I. Use of Estimates

The preparation of the basic financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and. Accordingly, actual results could differ from those estimates.

Note 2 – Cash and Investments

The Authority's cash and investments consist of cash and investments pooled with the City and cash and investments held by fiscal agents. At June 30, 2019, the Authority had the following:

Cash and investments pooled with the City of Pomona	\$ 1,011
Restricted investments	2,890,183
Total	\$ 2,891,194

On February 1, 2005, the Authority issued \$11,370,000 2005 Revenue Bonds, Series AL, to purchase and defease the City's 2005 Reassessment and Refunding Revenue Bonds, Series AM (Series AM Bonds). Of the \$2,890,183 in investments held by fiscal agent, \$1,657,000 consists of the Authority's investment in the Series AM Bonds.

Note 2 – Cash and Investments (Continued)

A. Deposits

Cash is deposited in the City's internal investment pool. The pooled cash is considered as cash since the Authority is able to withdraw at any time without prior notice or penalty. It has general characteristic of demand deposit accounts. The Authority does not own specifically identifiable securities in the City's pool. Interest income is allocated based on average cash balances. Investment policies and associated risk factors applicable to the Authority are those of the City and are included in the City's basic financial statements.

B. Investment Authorized by Debt Agreement

Investments of debt proceeds held by bond trustee are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. Investments authorized for funds held by bond trustee include, Federal Securities, Federal Agency Securities, U.S. Government Sponsored Enterprise Securities, Money Market Funds, Certificate of Deposit Collateralized by Federal or Federal Agency Securities or Fully Insured by Federal Deposit Insurance Corporation, Investment Agreements, Commercial Paper, Bonds or Notes used by any state or municipality, federal funds or bankers acceptances with maximum term of one year, repurchase agreements, pre-refunded municipal bonds rated "Aaa", Local Agency Investment Fund of the State of California, and any other investments permitted in writing by the Insurer. There were no limitations on the maximum amount that can be invested in one issuer, maximum percentage allowed or the maximum maturity of an investment, except noted otherwise.

C. Risk Disclosures

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy (Policy) limits investments to a maximum maturity of five years. At June 30, 2019, the Authority's investments with fiscal agent in money market mutual fund in the amount of \$1,233,183 and municipal bonds in the amount of \$1,657,000 had maturity one year or less.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. The City's investment policy provides that this risk be mitigated by investing in investment grade securities and by diversifying the investment portfolio. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. At June 30, 2019, the Authority's investments are rated as following:

			M inimum			
	F	air Value at	Legal			
Investment Type	Ju	ne 30, 2019	Rating	 AAA	1	Not Rated
Investments with fiscal agent:						
Money market mutual funds	\$	1,233,183	N/A	\$ 1,233,183	\$	-
Municipal bonds		1,657,000	AA	-		1,657,000
Total	\$	2,890,183		\$ 1,233,183	\$	1,657,000

Note 2 – Cash and Investments (Continued)

C. Risk Disclosures (Continued)

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investments in money market mutual funds and municipal bonds are held by fiscal agent.

Note 3 – Advances to the City and the Successor Agency

The summary of changes in advances to the City and Successor Agency for the year ended June 30, 2019, was as follows:

	Balance			Balance
	July 1, 2018	Additions	Deletions	June 30, 2019

A. Advances to the City of Pomona (Continued)

2016 Lease Revenue Refunding Bonds, Series BC

In connection with the issuance of \$26,645,000 2016 Lease Revenue Refunding Bonds, Series BC, the Authority entered into an agreement with the City to provide funds to current refund the Authority's 2013 Certificates of Participation, Series AG and the 2005 Lease Revenue Bonds, Series AN. Under the agreement, the Authority advanced the proceeds from the \$26,645,000 2016 Lease Revenue Refunding Bonds, Series BC to the City. Interest on the bonds is payable semiannually on each December 1 and June 1. The rates of interest range from 2.000% to 4.000% per annum. Principal is payable in annual installments ranging from \$1,085,000 to \$1,810,000. The City will make payments to the Authority sufficient to meet its debt service requirements on the related 2016 Lease Revenue Refunding Bonds, Series BC. At June 30, 2019, the outstanding balance is \$24,455,000.

2016 Revenue Refunding Bonds, Series BB

In connection with the issuance of \$8,425,000 2016 Revenue Refunding Bonds, Series BB, the Authority entered into an agreement with the City to provide funds to current refund the Authority's 2002 Refunding Revenue Bonds, Series AF. During the year 2019, the bonds were current refunded by the 2018 Tax Allocation Refunding Bonds, Series BI, issued by the Successor Agency to the Redevelopment Agency of the City.

2016 Lease Revenue Refunding Bonds, Series BC – Original Issuance \$26,645,000

On August 17, 2016 the Authority issued \$26,645,000 in 2016 Lease Revenue Refunding Bonds, Series BC, to (a) current refund the City's 2013 Certificates of Participation, Series AG and the Authority's 2005 Lease Revenue Bonds, Series AN, (b) purchase a reserve policy, and (c) pay for the cost of issuance.

The current refunding resulted in a difference between the acquisition price (Series BC) and the net carrying amount of the relinquished bonds (Series AG and AN) in the amount of \$473,040. This amount is reported as deferred gain on refunding. This deferred amount is amortized through June 1, 2034, the maturity date of the refunded debt (Series AG). The refunding also resulted in net present value savings in the amount of \$6,224,352 and saving in debt service payments in the amount of \$9,737,668.

Interest on the bonds is payable semiannually on each December 1 and June 1 and the final principal matures on June 1, 2036. The rates of interest range from 2.00% to 4.00% per annum. Principal is payable in annual installments ranging from \$1,085,000 to \$1,810,000. The bonds are secured by certain revenues consisting of certain Lease Payments with respect to the leased property by the City.

The annual debt service requirement for the 2016 Lease Revenue Refunding Bonds, Series BC outstanding at June 30, 2019, is as follows:

2016 Revenue Refunding Bonds (Sewer Projects), Series BB – Original Issuance \$8,425,000

On October 12, 2016, the Authority issued \$8,425,000 in 2016 Revenue Refunding Bonds (Sewer Projects), Series BB, (a) to current refund the Authority's 2002 Refunding Revenue Bonds, Series AF and (b) to fund the initial reserve, and (c) to pay for the cost of issuance.

The current refunding resulted in a difference between the acquisition price (Series BB) and the net carrying amount of the relinquished bonds (Series AF) in the amount of \$408,549. This amount is reported as deferred loss on refunding. The deferred amount is amortized through December 1, 2035, the maturity date of the refunded debt. The refunding of Series AF with Series BB/BD also resulted in net present value savings in the amount of \$1,896,844 and saving in debt service payments in the amount of \$3,022,853.

Interest on the bonds is payable semiannually on each December 1 and June 1 and the final principal matures on December 1, 2042. The rates of interest range from 3.250% to 4.000% per annum. Principal is payable in annual installments ranging from \$360,000 to \$710,000. The bonds are secured by an Installment Sale Agreement, dated as of November 1, 2016 between the City and the Authority. The Installment Payments are a special limited obligation of the City, payable from and secured by a pledge of and first lien on all Net Revenues, subject to the parity lien securing the Authority's 2007 Installment Sale Agreement, in the Sewer Enterprise Fund held by the City in trust under the Installment Sale Agreement.

B. Pledged Revenue

The City has pledged certain tax revenues to the repayment of the Authority debts through final maturity of bonds on February 1, 2047, or earlier retirement of the bonds, whichever occurs first.

Tax revenues consist of tax increment revenues allocated to the Successor Agency to various project areas pursuant to Section 33670 of the Redevelopment Law. Such Law excludes a portion of tax increment revenues required to be paid under Tax-Sharing Agreements unless the payment of such amounts has been subordinated to the payment of debt service on the Bonds. Assembly Bill 1X 26 provided that upon dissolution of the Redevelopment Agency, property taxes allocated to redevelopment agencies no longer are deemed tax increment but rather property tax revenues and will be allocated first to local agency and school entity pursuant to any pass through agreement, then second to successor agencies to make payments on the indebtedness incurred by the dissolved redevelopment agency. For the current year, the total property tax revenue recognized by the City was \$15,518,661 and the debt service payments on the bonds were \$19,493,311. As of June 30, 2019, the redevelopment property tax trust fund revenues were no longer pledged to repay the Authority debts.

The Authority has pledged sewer revenues from the City for the repayment of revenue bonds through the final maturity of the Bonds on December 1, 2042, or early retirement of the Bonds whichever occurs first. These bonds were issued to refinance Series AF, and finance certain public improvements of the City. All net revenues are irrevocably pledged by the City to the repayment of the bond's debt services, excluding operation and maintenance costs of these Enterprise Funds. In 2019, the Sewer Enterprise Funds have net available revenue of \$2,269,519 while total debt service paid was \$725,819. The Sewer Revenue Bonds require net revenue of 100% of debt service. Annual principal and interest payments on the Sewer Revenue Bonds are expected to require roughly 27% of future net revenue.

B. Pledged Revenue (Continued)

The total principal and interest remaining to be paid at June 30, 2019, on the Sewer Revenue Bonds is as follows:

Debt Issue	
2016 Series BB Bonds	13,385,536
2016 Series BD Bonds	3,980,944
Total	\$ 17,366,480
Revenue	2018-2019

Note 5 – Commitments and Contingencies

As of June 30, 2019, in the opinion of Authority management, there were no outstanding matters that would have a significant effect on the financial position of the fund of the Authority.

Note 6 – Net Position

The deficit unrestricted net position in the amount of \$(3,283,241) is primarily due to the unamortized premium for 2016 Lease Revenue Bonds in the amount of \$1,917,819 and 2005 Subordinate Revenue Bonds, Series AL in the amount of \$1,845,000. Both the premium and the Series AL bonds proceeds were not advanced to the City.
