**NOW, THEREFORE, BE IT HEREBY RESOLVED** by the Planning Commission of the City of Pomona, California:

SECTION 1. The Planning Commission exercising independent judgment finds that the proposed project will not have a significant effect on the environment. Pursuant to the Guidelines for Implementation of the California Environmental Quality Act (CEQA), the project is categorically exempt under Section 15332 of the California Public Resources Code, which exempts in-fill developments located in urbanized settings. **SECTION 2.** If any part, provision, or section of this resolution is determined by a court or other legal authority with jurisdiction over the subject matter of this resolution to be unenforceable or invalid, the remainder of the entirety of this resolution shall not be affected and shall continue in full force and effect. To this end, the provisions of this resolution are severable.

**SECTION 3.** In accordance with Section .580.B of the Zoning Ordinance, the Planning Commission must make five (5) findings in order to approve Conditional Use Permit (CUP 5344-2016). Based on consideration of the whole record before it, including but not limited to, the staff report, public testimony received at the public hearing on this matter, and evidence made part of the public record, the Planning Commission hereby finds as follows:

1. That the proposed use at the particular location will contribute to the general well-being of the neighborhood or community.

The proposed use of the subject site for residential development, specifically, the development of seven new residential condominium units at this particular location will contribute to the general well-being of the neighborhood and the community by expanding housing opportunities for residents by enhancing the appearance of the general area.

2. That such use will not, under the circumstances of the particular case be detrimental to the health, safety, peace, or general welfare of persons residing or working in the vicinity or detrimental to the use, valuation or enjoyment of property or improvements in the vicinity.

The project will not be detrimental to the health, safety, peace, or general welfare of persons residing or working in the vicinity since the project is in full conformance with the development standards and use requirements of the R-2 zone. The project will not be detrimental to the use, valuation, and enjoyment of property and improvements in the vicinity since the subject site is consistent with the surrounding properties which are zoned and planned for residential uses by the General Plan. The project, as designed, will enhance the neighborhood.

3. That the site of the proposed use is of adequate topography, size and shaped to accommodate said use as well as all yards spaces, walls, fences, parking, loading, landscaping and any other features necessary to allow said use with the land and uses in the neighborhood and make it compatible thereto.

The subject site is large and relatively flat with approximately 30,189 square feet of area. Therefore, the site has the adequate topography, size and shape to accommodate the proposed residential development project.

4. That the site abuts streets and highways are adequate in width and improvements to carry traffic generations typical of the proposed use.

PC Resolution No. Conditional Use Permit (CUP 5344-2016) 665 East Sixth Street Page 3 of 12

The subject site has street access directly to Grand Avenue, which is of adequate width and improvement to carry traffic generations typical of residential development projects.

5. That granting of such conditional use permit will not adversely affect the General Plan of the city and conforms to the provisions of the zoning ordinance.

The granting of the conditional use permit will not adversely affect the General Plan and conforms to the provisions of the Pomona Zoning Ordinance. The proposed residential use is consistent with the "Residential Neighborhood" place type as designated on the General Plan Land Use Map. The project furthers the goals and objectives of the General Plan. Specifically, the proposed project addresses Goal 6G.G8, to "ensure safe, family-oriented, human-scaled, walkable and livable residential neighborhoods." The project will develop a site that is currently underutilized into an aesthetically pleasing development that contributes to the City's housing stock which the General Plan identifies as being under supplied.

**SECTION 4.** Based upon the above findings, the Planning Commission hereby approves Conditional Use Permit (CUP 5344-2016) subject to compliance with all applicable laws and ordinances of the City as well as the addition of the following conditions, violations of which (or failure to complete any of which) shall constitute grounds for revocation of the conditional use permit or any portion thereof:
